Attorney's Docket No.: 15696-002001

REMARKS

Claim 19 has been amended as requested by the Examiner to recite that the association of access points with remote units is carried out at the wireless communication server. Support for the amendment is at page 3, line 20-page 4, line 2 of the application: "The switching hubs [communication server] maintain a routing list [the destination table] relating ports to the access points and the mobile units associated with the access points."

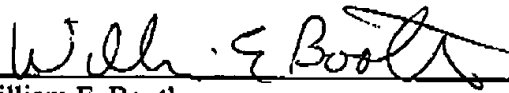

A Notice of Allowance is respectfully solicited.

The April 30, 2003 office action indicated that claim 25 would be allowable if rewritten in independent form to include the limitation of the base claim, namely, independent claim 19 on which it depended. Applicants included the limitation of claim 25 in claim 19 in the prior response, such that claim 19 should be allowed, particularly in light of applicants' compliance with the examiner's subsequent request for a clarifying amendment.

No fee is believed to be due. Please apply any charges or credits to deposit account 06-1050.

Respectfully submitted,
